TECHNICAL SKILLS

- **Languages:** SQL (JOINS, Aggregations, Subqueries, CTEs), Python (Pandas, NumPy, Scikit-Learn)
- **BI & Data Visualization:** Power BI (Desktop, Service, Semantic Modeling), Microsoft Fabric, Tableau, Excel (Copilot Chat, Advanced Formulas, Pivot Tables, XLOOKUP)
- **Tools & Databases:** MySQL, PostgreSQL, MongoDB, Git, GitHub,
- **Core Competencies:** AI-Ready Semantic Modeling, Gold Layer Design, Exploratory Data Analysis (EDA), Data Cleaning & ETL, Statistical Analysis, Predictive Modeling

ACADEMIC & PERSONAL PROJECTS

Stock Market Performance & Volatility Analysis

Python (Pandas, NumPy) Statistical Modeling

- Analyzed historical time-series stock market data across multiple financial tickers, computing daily returns, cumulative performance, and rolling volatility metrics.
- Engineered risk-return profiling models utilizing Moving Averages (SMA/EMA) and Pearson correlation matrices to isolate diversification opportunities.

Customer Trends & Purchasing Behavior Analysis

SQL, Python, Power BI, DAX

- Constructed an end-to-end analytics workflow from relational database extraction to interactive Power BI reporting, evaluating 3,900+ customer transaction records.
- Executed advanced SQL queries (CTEs, subqueries, multi-table aggregations) to segment consumer cohorts by demographic, purchase frequency, and subscription status.
- Built dynamic Power BI dashboards featuring custom DAX measures for Average Order Value (AOV), customer retention rates, and channel-wise revenue attribution.

Blinkit Quick-Commerce Retail Data Analysis

Power BI, Excel, Data Modeling

- Modeled omnichannel grocery sales data across Tier 1–3 outlets, analyzing over \$1.2M in gross merchandise value (GMV) and 8,500+ SKU distribution points.
- Evaluated critical KPIs including Total Sales, Average Sales per Outlet, Item Fat Content distribution, and Customer Rating trends across outlet sizes and tiers.
- Delivered an interactive Power BI executive dashboard with dynamic slicing across outlet establishment year, location tier, and product category.

CERTIFICATIONS & KEY ACHIEVEMENTS

- **Microsoft Certified: Power BI Data Analyst (PL-300):** Credential Valid - Demonstrates expertise in delivering actionable insights by transforming, modeling, and visualizing data in Power BI.
- **Prepare Semantic Models for AI in Power BI & Microsoft Fabric:** Microsoft Learn - Specialized in architecting gold layers, enterprise ontologies, and semantic models optimized for Copilot and autonomous data agents.
- **Work Smarter in Excel with Copilot Chat:** Microsoft Learn - Mastered generative AI workflows in Excel to automate formula authoring, synthesize data, and dynamically generate visual analytics.
- **Data Analyst Bootcamp Certificate:** Hands-on Practical Training (2026) - Real-world project experience spanning relational databases, ETL, and predictive modeling.

EDUCATION

Bachelor of Computer Applications (BCA) | Srinivas University

Graduation: 2026

Relevant Coursework: Database Management Systems (DBMS), Applied Statistics, Data Structures, Predictive Modeling
